## Veronica's Guides

### Welcome to NeoLife!

Hi, my name is Veronica and I'm here to help with your NeoLife experience. To read my NeoLife story, follow [this link](#).

### NeoLife Resources

#### The NeoLife App

The NeoLife App is the recommended tool for the person on the go who wants to place a quick order and who doesn't have access to a computer. On the app you can place orders, get product information and browse the NeoLife store. It is available for both Android and iPhone users. To get started follow the links below for helpful how to guides.

#### The NeoLife website – from your computer

The NeoLife website gives you full access to all of NeoLife's features and is a great way to manage your team. Each country has its own webpage so be sure to choose the correct region when you begin. Follow the links below for a full explanation on how to sign in and begin shopping.

#### The NeoLife website – from your phone

Using the NeoLife website from your phone is a little different to using a computer and we advise you to use the NeoLife App. Be sure to follow the links below for helpful guides to fully explain the process.

#### Support Groups

There are a variety of support groups available for you. You will be added to a WhatsApp broadcast group where important information such as team training will be sent out weekly. In addition, there is a [WhatsApp support group](#), a [Detox and Healthy Eating and Living Facebook Support Group](#) and a [Team Support and Business Building Facebook Group](#).

#### yourday2day Distributor listing

Contact Veronica if you would like to be added to the [Distributor listings on the yourday2day website](#). This is completely free, and allows customers to find distributors in their area, as well as their contact details.

Distributors have found this an incredibly useful tool in building their business. This is to help you get started and give your business a boost. You will still need to promote your own Shop NeoLife website.

## Building Your NeoLife Business

NeoLife has so much more to offer than great products. It gives you the opportunity to start your own business and be your own boss! Becoming a Distributor and starting your own business may sound daunting, but it couldn't be simpler. NeoLife has done all the hard work already. As a Distributor you are joining a well-established distribution network. You will have automatically access to a personal website, a library of marketing resources and sales training and support. All you need to do to start earning is use all of these tools to reach new customers!

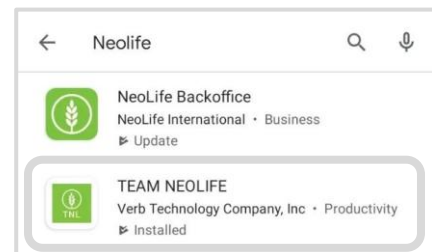

To get you started, read [this document](#) to learn about how a NeoLife business works. If you want to learn more about the NeoLife levels and their benefits, click [here](#). A step by step guide to launching a successful Distributor business can be found [here](#).

More information and marketing materials can be found at the Resources tab on the NeoLife website.

## The TNL App

The TNL (Team NeoLife) app is an incredibly useful tool that I advise you download, at least for the two-month free trial period after which it costs R300 per year.

On the app you have access to a wealth of information about the business building and personal health in the form of magazine articles and videos by NeoLife scientists and directors. All the information is company approved so you are able to share it on your own social media, which makes it a powerful marketing tool.

## The NeoLife University

The NeoLife university was set up to help teach their members the true value of the products. There are a variety of courses offered, all of them free and taking only a few days to complete. All the classes are available online just click <https://africa.neolifeu.com/>. There is a wealth of information available from our top scientists available to help you with your personal development.
